# Fresh and Funky

**Always the centre of attention, and impossible to ignore, our modern, colourful, 'Retail Ready' bags are guaranteed to get you noticed.**

Now, there are even more BagBase designs for you to choose from. For 2015, we're launching 36 fresh, new styles which reference all the very latest bag and embellishment trends.

On-trend and in-line with the growing market for full-colour dye sub decoration, our stunning Sublimation range offers 15 designs that have 'best seller' printed 'all over' them.

Certain to establish itself as the new first choice for travellers, our contemporary Escape luggage collection includes three new Dual-Layer designs that will make packing a pleasure.

Also, the new Affinity bags use RePet 100% recycled polyester fabric made entirely from recycled plastic bottles that would otherwise have ended up in landfill. The Weekender, Reporter and Backpack styles are also finished to an exceptionally high standard, complete with contrast-colour full lining, to combine modern design with planet-friendly credentials. 'Affinity': the new name in eco carrying solutions.

And we wouldn't be 'Europe's most colourful bag brand' if we didn't constantly develop our fabulous colour palette. Notable new additions for 2015 include ten striking colourways in our hugely popular BG125 Fashion Backpack, as well as four extra options in the kids' BG125J!

**BagBase: Put Colour in Your Life.**

# TearAway labels

The re-branding of BagBase products has never been easier with our TearAway labels.

We're always looking to improve our products and we are constantly responding to evolving customer requirements and market demands. Our TearAway labels do just that, answering directly to the growth of the re-branding market.

The TearAway labels comprise a front 'sheet' with brand, style and address information. This is made from easy-tear fabric and can be removed in seconds to leave an unbranded 'Retail-Ready' product. Behind this front sheet are additional sewn-in sheets made from traditional satin-type label fabric.

These sheets provide fibre composition data (in 23 European languages), as required by EU regulations, and care instructions by way of internationally recognised care symbols.

Look out for the TearAway logo, which appears next to every product carrying the labelling system.

# Made for Decoration

Our 'Retail Ready' carrying solutions are designed for quick, easy and profitable decoration. Screen prints, transfer prints, embroideries, appliqués, rhinestones... BagBase products provide the perfect canvas for all types of branding.

Will our bags work with your chosen inks, threads and transfer papers? Yes! All our fabrics are comprehensively tested for compatibility with the leading products from all the major consumables manufacturers.

We're further expanding your decoration options, and creative horizons, in 2015 with the launch of our new Sublimation range. The 15 polyester bag styles are made specifically for dye sub printing. Every product boasts a 'press-optimised' decoration panel with HD sublimation image surface that's just crying out for full-colour, photorealistic images.

Decorating our bags is always a joy, and never a chore, thanks to the innovative EasyPanel™ and EasyPocket™. The zip-off EasyPanel™ can be completely removed, decorated, and zipped back on in no time at all. The EasyPocket™ is even simpler to use: lift it out of the way, add your embroidery to the outside of your bag, then drop the pocket back into place, covering the stitches and backing inside.

So what are you waiting for? Get BagBase and get decorating!

**BagBase: Put Colour in Your Life.**

Throughout this brochure we have included the following decoration information, where applicable.

**EasyPanel™  
EasyPocket™**

The product has an EasyPanel™/EasyPocket™ to facilitate easier decoration.

12

Flat bed hoop - the product can be embroidered on a flat bed or drop-table embroidery machine. The number denotes the maximum hoop size.

28 x 12

Imprint area - The figures within the blue box represent the maximum dimensions, in centimetres, for a screen printed or transfer applied logo at the suggested location.

18

Tubular hoop - the product can be embroidered on a drop-table embroidery machine only. The number denotes the maximum hoop size.

This information is given as a general guide only. Products should always be tested to confirm suitability for a particular decoration method.

# Ethical Principles

---

**BagBase is committed to upholding the highest ethical and environmental standards throughout our entire supply chain.**

We operate according to an ethical policy that protects and rewards every individual involved in the manufacture and supply of our products. The ethical policy references and respects local laws, with regard to wages, health and safety, workers' welfare and human rights. It expressly forbids the use of coerced/forced labour, including child workers.

Our field based staff carry out full audits on all our manufacturing partners to ensure that our ethical standards are constantly maintained. We endeavour to protect the quality of the environment through sound environmental practice. We ensure that our manufacturing partners meet or exceed all local environmental laws and regulations, and we promote energy efficiency and the reduction of waste at every stage of production.

And we stay continually updated on REACH legislation, commissioning regular fabric and component testing to ensure compliance with this strict European product safety and environmental protection standard.

**We know the value of your image and good reputation.  
You can rest assured that choosing BagBase will only ever enhance your own ethical and environmental credentials.**
